

Level 2 Certificate in the Principles of the Prevention and Control of Infection in Health Care Settings

Course Overview

This qualification aims to prepare you for tackling the outbreak of infection in hospitals and healthcare settings and how to control infections by aiding you in understanding the many causes of infection and how it can be spread, as well as how you can help control it.

Following the COVID19 outbreak, prevention and control measures through good practice are more key than ever before. This course will look at infection prevention and control in health and social care, the causes and spread of infection and the infection control procedures in health care.

Course length:
8-12 weeks

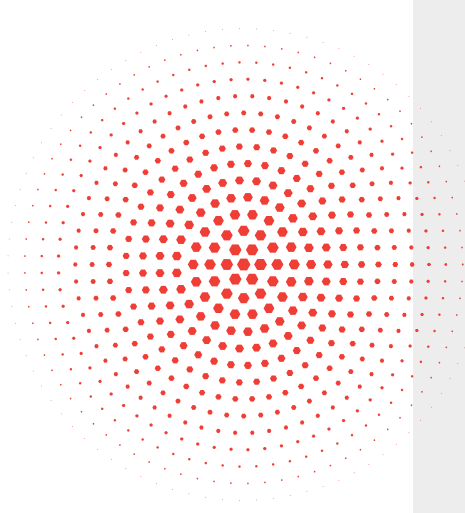

Awarding Body:
TQUK

Value: £299.00
Cost: £0.00
