

Level 2 Certificate in Understanding Common Childhood illnesses

Course Overview

Increase your knowledge and understanding of common childhood illnesses, including how to provide a safe and healthy environment for babies and young children. Also learn how to recognise when a baby or child is unwell, and how to manage acute and chronic health conditions in an early years setting.

Whether you are an individual looking to upskill in this area or an employer looking to train your staff, this course will provide all the necessary skills in common childhood illnesses for those working in childcare settings.

Course length:
8-12 weeks

Awarding Body:
TQUK

Value: £399.00
Cost: £0.00

Course Content

Unit 1: Understand how to provide a safe and healthy environment for babies and young children

In this unit, you will explore ways to minimise cross infection and maintain a safe and hygienic environment for babies and young children.

Unit 2: Understand common childhood illnesses

This unit will help you to recognise when a child is unwell, and common childhood illnesses that may occur. You will also consider the policies and procedures relating to unwell children in an early years setting.

Unit 3: Understand health emergencies and specific health conditions in an early years setting

In the final unit of this course, you will consider the role of the practitioner in relation to common accidents and basic first aid, as well as serious illness requiring emergency support. Acute and chronic health conditions, including how to manage allergies in the setting, will also be covered.
